- black pen
- HB pencil
- ruler (with cm \& mm)
- rubber
- protractor
- compass
- pencil sharpener

## Time allowed

- 1 hour

## Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the space provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work that you do not want to be marked.

## Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 57.

The quality of your written communication is specifically assessed in questions indicated with an asterisk (*)

- You may ask for more answer paper and graph paper.

These must be tagged securely to this answer booklet.

- A calculator must NOT be used.

## Advice

- Read each question carefully before you answer it.
- In all calculations, show clearly how you work out your answer.
- Check your answers if you have time at the end.

There are no questions printed on this page

DO NOT WRITE ON THIS PAGE ANSWER IN THE SPACES PROVIDED
1 Here are some patterns made from squares:

Pattern number 1

Pattern number 2

Pattern number 3
(a) The diagram below shows part of Pattern number 5

Pattern
number 5
(b) Complete the table:

| Pattern number | 1 | 2 | 3 | 4 | 5 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Number of squares | 6 | 11 | 16 |  |  |

(1 mark)
(c) Find the number of squares used for Pattern number 14

## Complete the diagram for Pattern number 5

(1 mark)
$\qquad$

2 Here are some patterns made from straws:

(a) In the space below, draw Pattern number 4.
(b) Complete the table:

| Pattern number | 1 | 2 | 3 | 4 | 5 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Number of straws | 5 | 9 | 13 |  |  |

(1 mark)
(c) Find the number of straws used for Pattern number 12

3 Here are some patterns made with dots:

(a) On the grid below, draw Pattern number 4:

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

(b) Complete the table:

| Pattern number | 1 | 2 | 3 | 4 | 5 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Number of dots | 9 | 14 | 19 |  |  |

4 The first even number is 2
(a) Write down the $6^{\text {th }}$ even number.

Answer $\qquad$

Here are some patterns made from straws:

Pattern number 1

Pattern number 2

Pattern number 3
(b) In the space below, draw Pattern number 4.
(c) Complete the table:

| Pattern number | 1 | 2 | 3 | 4 | 5 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Number of straws | 4 | 8 | 12 |  |  |

(d) ${ }^{\star}$ Jo wants to find the number of straws in Pattern number 50.

Write down a method she could use.
$\qquad$
$\qquad$

5 Here are some patterns made from grey squares and white squares:

Pattern number 1
Pattern number 2
Pattern number 3
(a) In the space below, draw Pattern number 5:

$\square$

Pattern number 4
Pattern number 5
(b) Complete the table:

| Pattern number | 1 | 2 | 3 | 4 | 5 |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Total number of squares | 3 | 6 | 9 |  |  |

(c) One of the patterns in the sequence has 20 grey squares.

How many white squares does this pattern have?

Answer
(1 mark)
(d) Another pattern in the sequence has a total of 36 squares.

How many grey squares does this pattern have?

Answer
(2 marks)

6 Here are the first four terms of a number sequence:

$$
7
$$

11
15
19
(a) (i) Write down the next three terms of the number sequence.

> Answer ................................................ (1 mark)
(ii)* Explain how you found your answer.
$\qquad$ (1 mark)
(b) The $15^{\text {th }}$ term of the number sequence is 63

Write down the $16^{\text {th }}$ term of the sequence.

7 The $n^{\text {th }}$ term of a number sequence is given as $5 n-2$
(a) Work out the first three terms of the number sequence.

## Answer

$\qquad$

Here are the first four terms of another number sequence:

$$
4
$$

7
10
13
(b) Find, in terms of $n$, an expression for the $n^{\text {th }}$ term of this number sequence.

Answer ............................................. (2 marks)

8 (a) Write down the next term in each sequence:

| (i) | 7 | 10 | 13 | 16 | $\ldots \ldots \ldots$ | (1 mark) |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| (ii) | 7 | 5 | 3 | 1 | $\ldots \ldots \ldots$. | (1 mark) |
| (iii) | 3 | 6 | 12 | 24 | $\ldots \ldots \ldots$ | $(1$ mark) |

(b) The numbers in this sequence increase by the same amount each time:

What are the two missing numbers?
$\qquad$

9 The $n^{\text {th }}$ term of a number sequence is given as $75-4 n$
(a) Work out the first three terms of the number sequence.

## Answer

(2 marks)
(b) Work out the first term of the sequence that is negative.

Answer $\qquad$ (2 marks)

10 Here are the first three terms of a number sequence:

30
18
12

The rule for working out the next term in the sequence is:

Add 6 to the previous term and then divide by 2
(a) Work out the first term of the sequence that is not a whole number.
(b) This sequence uses the same rule:

Add 6 to the previous term and then divide by 2

The third term of this sequence is 15 :

$$
\text { .......... .......... } 15
$$

Work out the first term.

Answer
(3 marks)

11 (a) Write down the next term in each sequence:
(i)
(i) 4
9
14
19
(1 mark)
(ii)
6.5
6.7
6.9
7.1
(1 mark)
(iii)
$-1$
$-5$
-9
(1 mark)
(b) Here is a different sequence.

The third term of this sequence is 24 and the fourth term is 40 :
$\qquad$ 24 40

The term to term rule for this sequence is:

> Double and subtract eight

Work out the first term of the sequence.
$\qquad$ (2 marks)

12 (a) The numbers in this sequence decrease by the same amount each time.
75 $\qquad$ 59
51
43

What are the two missing numbers?

Answer $\qquad$ and.
(2 marks)
(b) The numbers in this different sequence decrease by the same amount each time.

29 $\qquad$
$\qquad$ 9

What are the three missing numbers?

Answer $\qquad$ and. $\qquad$ and $\qquad$ (2 marks)

13 (a) Here are the first two terms of a sequence:

$$
4
$$

3

The rule for working out the next term in the sequence is:

Multiply the previous term by two and subtract five

Work out the first negative term of the sequence.
(b) Here are the first three terms of another sequence:
$\begin{array}{lll}5 & 8 & 11\end{array}$

Which of the following is the $n^{\text {th }}$ term for this sequence? Circle the correct answer.

$$
n+3 \quad 3 n+1 \quad 3 n-2 \quad 3 n+2
$$

14 (a) A sequence starts:
62
59
56
53
(i) Write down the next two terms.

Answer $\qquad$ and
(ii) What is the rule for continuing the sequence?

Answer $\qquad$ (1 mark)
(b) Another sequence starts:

48
41
34
27

If this sequence is continued, what will be the first negative number?

Answer $\qquad$ (1 mark)
(c) Continue the first sequence. What is the next number that the two sequences have in common?

Answer
(1 mark)
