| 10.      | 20              |                 |
| Total    | 80              |                 |

### **ADDITIONAL MATERIALS**

You may require a calculator and a ruler.

#### **INSTRUCTIONS TO CANDIDATES**

Use black ink or black ball-point pen. Do not use pencil or gel pen. Do not use correction fluid. Write your name, centre number and candidate number in the spaces at the top of this page. Answer **all** questions.

Write your answers in the spaces provided in this booklet. If you run out of space, use the additional page(s) at the back of the booklet, taking care to number the question(s) correctly.

#### **INFORMATION FOR CANDIDATES**

The number of marks is given in brackets at the end of each question or part-question. You are reminded of the necessity for good English and orderly presentation in your answers. Assessment will take into account the quality of written communication used in your answers.

## Answer all questions in Section A and Section B.

**8.** A head teacher gathered a sample of 360 students from a local sixth form college. They gave all students a questionnaire about happiness, which categorised the students into four groups – Very Happy, Ambivalent (neither happy nor unhappy) and Unhappy.

| Happiness category                     | Number of students |
|--|--------------------|
| Very Happy                             | 180                |
| Нарру                                  | 90                 |
| Ambivalent (neither happy nor unhappy) | 45                 |
| Unhappy                                | 45                 |

| (a)   | used it to collect the participants for this research. | ave<br>[3] |
